**Dottorato di Ricerca in Scienze Chimiche,
Geologiche e Ambientali**
Curriculum in Scienze Chimiche

SEMINARI DI FINE ANNO – XXXVI CICLO

Martedì 20 settembre 2022, dalle ore 09:30

Aula U1-03

Valentina Bellotti

Exchange Membranes; synthesis and characterization

Erika Ghiglietti

Crosslinked ethylcellulose nanocapsules as innovative catalytic nanoreactors for cross-couplings performed in water

Anna Ranaudo

In silico design of new diagnostic probes for clinical molecular imaging

Ana Rita Franco

Development of New Toll-Like Receptor 4-directed adjuvants and clarification of their mechanism of action
