

University Milano - Bicocca
**Ph.D. Course in Chemical, Geological and
Environmental Sciences**
Chemical Curriculum

FINAL DISSERTATION - XXXV CYCLE

Monday January 30, 2023 - 10:30

Aula Sironi (U4-8)

Francesca Cadamuro

Generation of functionalized biomaterial for biomedical applications

Marco Iannone

Development of new "general purpose" methods for the introduction of fluorine-18 in biologically active macromolecules

Alessandro Mancini

Physico-chemical characterization of emissions from braking operation

Alessio Romerio

Synthesis and biological characterization of toll-like receptor 4 agonists as innovative vaccine adjuvants
