

# Plastics & Environment 3<sup>rd</sup> Edition

Exploring Environmental, Sustainability and Planetary Health dimensions

- a multidisciplinary conference -

4-5<sup>th</sup> June 2026

polaris@unimib.it

<https://www.unimib.it/eventi/plastics-and-environment>

## Scientific sessions

- Innovative monitoring methods and intra- and inter-environmental compartment fate of micro and nanoplastics.  
Keynote speaker: Francesca De Falco - University of Bayreuth
- Ecotoxicological and environmental impacts of plastics: emerging evidences and future challenge.  
Keynote speaker: Violette Geissen - Wageningen University & Research
- Human exposure and adverse health effects of micro and nanoplastics: unravelling the mysteries behind these ubiquitous threat.  
Keynote speaker: Enrico Bergamaschi - University of Turin
- Promoting Safe and Sustainable by Design, circularity and bioeconomy in polymers innovation.  
Keynote speaker: Serenella Sala - European Commission, Joint Research Centre (JRC)
- Climate-neutral cities and plastic. Rethinking practices, governance and politics for urban and environmental health.  
Keynote speaker: Luigi Pellizzoni - Scuola Normale Superiore

## Deadline for Registration 18<sup>th</sup> May!!

Late abstract for Poster presentation still open...don't miss this opportunity!

### Opening Workshop: DESIGNING THE NEXT GENERATION OF SUSTAINABLE TEXTILES

How innovation and regulation come together through Safe and Sustainable by Design.

June 4th, 2026, Time 9:30-11-30.

Free event included in the registration fee, supported by: EU project INTEGRANO, AICTC.
